Society Executive Director, John M. Peckham III said "Like the seven previous annual events which have grown steadily from 20,800 to over 30,000 attendees and have featured over 180 national speakers, the 2009 Cyber Convention brings real estate professionals all of the excitement and features of a "hard floor" convention.

"This year, in addition to Keynoters Ferrara, Russer and Swanepoel, attendees will learn from over 40 top-notch nationally recognized real estate trainers, authors and luminaries.

"This year's event will be held again in the state of the art extremely immersive 3-D virtual convention center. The on-line convention center features a popular Networking Lounge including an array of discussion rooms at selected Expo Booths and a 24- hour "Ticker Tape" featuring special announcements regarding events and door prize drawings. Attendees are also provided with a 3-D Convention Program Guide containing comprehensive convention information."

"The Society feels that this year's event is ideal in these "pinch penny" times. "There is very little attendees will miss at this virtual event, Peckham concluded. All of the elements of a "hard floor convention" will be there. The only thing missing will be out of pocket costs for airfare, hotel bills, lost shoe leather, aching muscles, travel hassle, registration fees - and time away from home! Attendees can thank the exhibitors and sponsors for that – it's their gift to the industry"
