Study Area Flexibility:

Study areas can be created in the following ways:

- Map a site using address, intersection, latitude and longitude or click on the map to create center point
Add radii, donuts or drive times around center point. Radii and donuts from .1 mile to 250 miles
- Create a hand-drawn study area (polygon) with unlimited number of points
- Upload an excel file with up to 100 addresses to geocode and create a study area for each
- Choose a standard geography such as a census block group, census tract, zip code, city, county, CBSA, state or US
